This initiative which consists in bringing **Tango, Music and Dance**, to the elderly, first started in Burgundy, thanks to a very close cooperation with France Mourey, University Professor at the University of Bourgogne-Franche-Comté and Inserm 1093 Researcher.

The project is now represented in over **800 workshops** in **7 countries**, and in **7 languages**.

It operates, at the whim of the pandemic, Face-to-Face, Online, or in online Interactivity.

The objective in 2022 is to create workshops to gather isolated seniors in Historical and Cultural places, for which the starting point will be the **MuséoParc Alésia** on Tuesday 15th March 2022.
